DESCRIZIONE DEL PROGETTO e MODALITÀ DI RILEVAZIONE DEI RISULTATI

La rilevazione della qualità del pasto è stata svolta in maniera uniforme per tutte le scuole dell'infanzia e le primarie servite dall'appalto della mensa scolastica, al fine di verificare il gradimento dei medesimi menù nelle varie scuole, compilando un questionario on line. La rilevazione è stata effettuata, in particolare, dalle/dagli insegnanti presenti a mensa per tutte le classi utilizzatrici del servizio e per tutti i giorni compresi nel periodo. I pasti serviti dalla cucina di Lugo, Alfonsine e Massa Lombarda sono stati confrontati tra di loro, mentre è stata fatta un'analisi separata per quanto riguarda la cucina di Cotignola.
